Dear colleagues,

All world became a witness of Russia's wild invasion to sovereign Ukraine. By land, air and water it attacked peaceful Ukrainian cities. Russia is bombing Kharkiv, Odessa, Kherson, Chernihiv, Sumy, Konotop, Zhytomyr, Mykolaiv, Melitopol, Mariupol, Makariv, Borodianka, Hostomel, Bucha, Irpin, Vorzel, and many other cities. Ukraine's nuclear station in Zaporizhzhia has been captured by Russian military forces. It was on fire. If there is an explosion it will be the end of Europe!

By waging the bloody war in Ukraine, Russia is committing actions unjustifiable both military, morally and legally. Putin and his army act like terrorists breaching all norms and principles of international and humanitarian laws. The result of Russia's invasion: lost lives of children, peaceful citizens, destroyed cities, houses, hospitals, schools, institutions, humanitarian catastrophe in Kharkiv, Mariupol and Kherson.

Nevertheless, Ukraine has been fighting for a week and it will stay and WIN! The democracy world is together with Ukraine and we thank you for this support!

Having said that, I strongly convinced that the Supreme Court of Russia should be excluded from participation in the Conference of Chief Justices of Central & Eastern Europe as it represents a country that brought terror, death and crimes against humanity in Ukraine and not only.

I sincerely hope for your positive feedback.

Sincerely yours,

President of the Supreme Court

Vsevolod Kniaziev
